

National Access Point Coordination Organisation for Europe *“Making Mobility Data Flow”*

The world’s largest cooperation of mobility data platforms started

NAPCORE (the National Access Point Coordination Organisation for Europe) is the name of the newly formed organisation to coordinate and harmonise more than 30 mobility data platforms all over Europe.

The European Intelligent Transportation Systems Directive

The ITS Directive 2010/40/EU and its Delegated Regulations require that each European Member State must establish a National Access Point (NAP) for mobility data. By now, there are more than 30 operational National Access Points in virtually all EU Member States (and beyond), where mobility related data is published and made available for use e.g. in travel information services. However, it has become apparent, that the NAPs are quite different in their setup and data access interfaces. Also, the data published looks different throughout Europe from a data format and standard perspective.

NAPCORE project

Co-financed by a Programme Support Action under the European Commission’s Connecting Europe Facility NAPCORE has been launched as coordination mechanism to improve interoperability of the National Access Points as backbone of European mobility data exchange. NAPCORE improves the interoperability of mobility related data in Europe with mobility data standard harmonisation and alignment. Also, NAPCORE increases access and expands availability to mobility related data by coordinated data access and better harmonisation of the European NAPs. Furthermore, NAPCORE empowers National Access Points and National Bodies by defining and implementing common procedures and strategy, strengthening the position and the role of NAPs, supporting steps towards the creation of European-wide solutions to better facilitate the use of EU-wide data.

European coverage

NAPCORE has been created in this spirit of consultation and cooperation and it includes 36 participants: 33 Beneficiaries covering 26 EU Member States and 3 associated partners (see full list below). The initial runtime of the Programme Support Action is until the end of 2024 but the goal is to establish a long-lasting and future-oriented platform organisation.

Partners in/of NAPCORE

1. Bundesanstalt für Straßenwesen (BASt) - established in Germany
2. Die Autobahn GmbH des Bundes (Die Autobahn) - established in Germany
3. Bundesministerium für Klimaschutz, Umwelt, Energie, Mobilität, Innovation und Technologie (BMK) - established in Austria
4. Federale Overheidsdienst Mobiliteit en Vervoer (MOB) - established in Belgium
5. Departement Mobiliteit en Openbare Werken (MOW) - established in Belgium
6. Road Infrastructure Agency (API) - established in Bulgaria
7. Ministry of the Sea, Transport and Infrastructure (MMPI) - established in Croatia
8. Public Works Department, Ministry of Transport, Communications and Works (PWD) - established in Cyprus
9. Česká republika – Ministerstvo dopravy (MDČR) - established in Czech Republic
10. Danish Road Directorate (DRD) - established in Denmark
11. Estonian Transport Administration (ETA) - established in Estonia
12. Traffic Management Company Fintraffic Ltd - established in Finland
13. Ministère des Transports - established in France
14. Ministry of Transport and Infrastructure - Road Toll Service - established in Greece
15. EGNATIA ODOS SOCIETE ANONYME (EGNATIA ODOS A.E.) - established in Greece
16. Ministry for Innovation and Technology (ITM) - established in Hungary
17. Department of Transport - established in Ireland
18. Ministero delle Infrastrutture e della Mobilità Sostenibili (MIMS) - established in Italy
19. Latvijas Valsts Celi (Latvian State Roads) (LVC (LSR)) - established in Latvia
20. State Enterprise Lithuanian Road Administration (LRA) - established in Lithuania
21. Ministry of Mobility and Public Works - established in Luxembourg
22. Ministerie van Infrastructuur en Waterstaat / Rijkswaterstaat (RWS) - established in The Netherlands
23. Authority for Transport in Malta (Transport Malta) - established in Malta
24. General Directorate for National Roads and Motorways (GDNRM) - established in Poland
25. Ministério das Infraestruturas e da Habitação - established in Portugal
26. Ministry of Transport and Infrastructure (MTI) - established in Romania
27. Ministry of Infrastructure of Republic of Slovenia (MZI) - established in Slovenia
28. Dirección General de Tráfico (DGT) - established in Spain
29. Swedish Transport Administration (TRV) - established in Sweden
30. National Highways Limited - established in United Kingdom
31. EUROPEAN ROAD TRANSPORT TELEMATICS IMPLEMENTATION COORDINATION ORGANISATION (ERTICO- ITS EUROPE) - established in Belgium
32. Information Technology for Public Transport A.I.S.B.L. (ITxPT) - established in Belgium
33. Union Internationale des Transports Publics (UITP) - established in Belgium

Associated Partners:

- Norwegian Public Roads Administration (NPRA) - established in Norway
- Federal Roads Office (FEDRO) - established in Switzerland
- Ministry of Transport and Construction of the Slovak Republic - established in the Slovak Republic
