

Martin Boehm

Since 2006 Martin Boehm is employed by AustriaTech, where he coordinated the Unit „Technologies and Services for Mobility“ between 2009 and 2021. In 2021 he became „Technical Director“ responsible for the overall technical coordination.

Martin Boehm holds a master in „Geography“ of University Vienna (1996) and in „Traffic Telematics Management“ of the Danube University Krems (2006). Between 1996 and 2006 Martin was employed at „Navigation Technologies“ (nowadays HERE), a supplier of digital maps for navigational systems. In total, Martin has more than 25 years expertise in the area of technologies and services for mobility.

In addition, Martin is nominated expert for several groups established by the European Commission with regard to the implementation of the European ITS Directive 2010/40/EU.

As General Secretary of the C-Roads Platform (www.c-roads.eu), Martin is aiming at harmonised and interoperable deployment of C-ITS services across Europe. Furthermore, he is member of the CEF Transport Advisory Group and Deputy Secretary General of the ITS Austria Platform (www.digitalvernetztmobil.at).
