

AustriaTech-Newsletter, issue 02/19

Dear readers,

automated mobility is the hot topic of the mobility sector. The development already influences parts of our mobility behaviour and holds great potential for future changes. That is why a lively debate is so important: to foster the benefits rather than the negative outcomes. As part of the global citizens debate on automated mobility, AustriaTech supports the dialogue in five Austrian cities this april. The dialogue takes place in more than 20 cities of Europe and North America, thus an international comparison of all the results can be made. With this months Newsletter we provide useful information for the discussion.

Enjoy reading, your AustriaTech-Editorial Team!
