

Electromobility in Austria

Facts & Figures
April 2019

Highlights in April 2019

In April, 724 electric vehicles were newly registered in Austria and the stock has risen to 30,304. Compared to other federal states, Vorarlberg has a BEV share of 3.79% in new registrations. The Tesla Model 3 is the most popular BEV model with 142 new registrations in April 2019. In the comparison of brands Tesla also leads with around 34% market share.

The monthly Facts & Figures-sheet offers a compact overview of current developments in the electromobility. As a federal agency, AustriaTech assumes the role of an expert organisation and prepares the data factually and neutrally.

Electromobility in Austria, April 2019

New registrations of e-vehicles of category M1 per month (for Austria)

In the comparative period since January 2016, there has been a steady upward trend in the newly registered e-vehicles. In April 2019, 724 BEV (- 46% on the previous month), 175 PHEV (+ 23% on the previous month) and 1 FCEV (- 50% on the previous month) were newly registered. The share of new registrations of e-vehicles in April 2019 was 2.82%.

New registrations of e-vehicles of category M1 by year (for Austria)

From January to April 2019, 3,266 BEV, 605 PHEV and 6 FCEV were newly registered. Compared to April 2018, new registrations of BEV increased by 32%, PHEV new registrations dropped by 10% and FCEV registrations rose from 0 to 1 unit. The e-vehicle share of category M1 registrations from January to April 2019 is 3.44%.

Facts & Figures

Electromobility in Austria, April 2019

New registrations of BEV cars of category M1 by Austrian federal state (Apr 2019)

Compared with other Austrian federal states, Vorarlberg has the highest percentage of BEV in newly registered passenger cars at 3.79%, followed by Tyrol (2.77%) and Salzburg (2.59%). Austria has a BEV share of 2.27%. In the absolute number of newly registered BEVs, Vienna is ahead with 137 E-cars, followed by Lower Austria (130) and then Upper Austria (119).

New registrations of BEV cars of category M1 by model (cumulated until Apr 2019)

BEV market share 2019 (M1)

In the period from January to April 2019 the most popular model was the Tesla Model 3 with 981 units, followed by the BMW i3 with 395 units and the VW e-Golf with 327 units. The most popular model in April was the Tesla Model 3 with 142 units, followed by the Renault Zoe with 82 units and the VW e-Golf with 78 units. The market share of new registrations from January to April 2019, Tesla takes first place with around 34%, followed by BMW with 12% then Hyundai with around 11%.

Facts & Figures

Electromobility in Austria, April 2019

Population of e-vehicles of category M1 over time (for Austria)

While the number of battery electric vehicles rose moderately between 2010 and 2012 (approximately 1,400 in 2012), the number of electric vehicles has risen sharply since then, including in April 2019. As of the end of April 2019, 30,304 electric vehicles were on the roads of Austria, corresponding to a share of the total population of 0.61%.

Publicly accessible charging points in Austria

The figure shows publicly available normal and fast charging points according to Directive 2014/94/EU. In total there are 4,142 normal charging points and 686 fast charging points until the end of the 4th quarter of 2018. Currently there are about 6 electric cars (BEV and PHEV) on one NCP and about 39 on a FCP.

About AustriaTech

AustriaTech is a 100% subsidiary of the Federal Ministry of Transport, Innovation and Technology (BMVIT). It acts as an integrator in the field of mobility and supports the transformation processes towards an ecological, efficient and modern transport system. The activities range from new services and digital infrastructure to automated mobility. Electromobility activities include a continually monitoring and annual electromobility highlights, as well as participation in various working groups and supporting actions in ongoing activities such as subsidies, research programs, guidelines.
